

HOMOTOPY DAY

Under the leadership of Junshu School in Building Zhihua, we will organize a whole-day workshop on homotopy theory. The possible date for it is June 18, and the detailed table is as follows.

Time	Speaker	Topic
10:00-11:30	Jiangnan Xiong	Introduction to (∞, ∞) -category
Noon	Banquet (Chinese meal)	
13:30-15:00	Zhenpeng Li	Introduction to Efimov K -theory
15:00-15:30	Tea break (a HHHuge cake)	
15:30-17:00	Xingzhu Fang	Glimpse of Sanath Devalapurkar, a rising star
Nightfall	Banquet (seafood buffet)	
19:00-20:30	Chenglong Ma	Topological Hochschild homology of local fields
20:40-22:10	Shize Hao	DGM theorem (zoom)

Maybe someone has noted that from June 10 to June 19, every three days is the birthday of some member. So it is also a grand and meaningful academic activity for us young mathematical workers. No matter where we will go and what we will obtain in the future, happy birthday, happy graduation, and happy mathematics.
